AO-92 to Try Imaging Hurricane Florence September 13-14

AMSAT Vice-President of Operations, Drew Glasbrenner, KO4MA says that the camera on AO-92 is planned to be used to try to image Hurricane Florence during North American east coast passes on Thursday, September 13, and Friday, September 14.

AO-92 will not be in its U/V FM voice transponder operation during these passes. Ground stations should standby and not attempt to access AO-92 during this time. Voice operation will be available later during these days.

The high speed image data will be transmitted on the 145.880 MHz downlink.

The image can be captured, decoded, and uploaded to the Fox-1 data warehouse using the FoxTelem v.1.06 software available from AMSAT:
http://amsat.us/FoxTelem/windows
http://amsat.us/FoxTelem/mac
http://amsat.us/FoxTelem/linux

[ANS thanks AMSAT Vice-President of Operations, Drew Glasbrenner, KO4MA for the above information]

/EX

In addition to regular membership, AMSAT offers life memberships, and sustaining donors to AMSAT Project Funds, will be eligible to receive additional benefits. Application forms are available from the AMSAT Office.

Primary and secondary school students are eligible for membership at one-half the standard yearly rate. Post-secondary school students enrolled in at least half time status shall be eligible for the student rate for a maximum of 6 post-secondary years in this status.
Contact Martha at the AMSAT Office for additional student membership information.

73 and Remember to help keep Amateur Radio in space,
